1 bedroom units: plots 1, 2	at 9.4 million baht
2 bedroom units: plots 3, 4	at 9.4 million baht

Having analyzed the Samui market and prices of land for beach projects we are presenting the project at a highly competitive price.

The initial units are being sold at just 55,000 baht per m2 which is around 50% of the actual market price for other beach front projects on the island at this time.

We also have excellent payment terms for our customers and will in certain instances be able to provide a level of financing to the buyer.

During the launch phase we will be open to discuss multiple unit sales and appropriate discounts to our customers.
